With the rapidly changing coronavirus situation, it becomes necessary for us to communicate updates in a time sensitive manner. Below you will see a list of church family attendees that DO NOT have access to a computer, therefore are not receiving our Lodi UMC church updates via email. Because of this we are asking your help. Would you please, after receiving an update email from church, contact your "Email Partner(s)", reading them the information sent from church. This will help us make sure all attendees of our church are receiving the same important information. We've listed their phone numbers, taken directly from our church directory. If you have any questions, please let us know.
